Diesel Living with Berti

From 2015 to 2025: A Decade of Style

WITH
 **BERTI**

From the unique Diesel Living style and the know-how 'signed' by Berti comes a new partnership. The result of research and innovation in the transformation and treatment of materials applied to a collection of wooden floors, where several formats and finishings transform every room into a 100% Diesel space.

Dall'inconfondibile stile Diesel Living e dal know how "firmato" Berti nasce una nuova partnership. Frutto della ricerca e innovazione nella trasformazione e trattamento dei materiali applicata a una collezione di pavimenti in legno, dove vari formati e finiture trasformano ogni ambiente in uno spazio 100% Diesel.

Un nouveau partenariat naît de l'incomparable style Diesel Living et du savoir-faire « signé » par Berti. Le résultat de la recherche et de l'innovation dans la transformation et le traitement des matériaux appliqués à une collection de sols en bois, où les différents formats et finitions transforment chaque pièce en un espace 100 % Diesel.

TARTAN WOOD

COLLECTION

Tartan is born from the encounter between the warmth of wood and the iconic character of Scottish patterns, stars of the latest Diesel fashion shows. A play of contrasts between natural grain and bold graphic marks, in a palette ranging from elegant neutrals to more daring color combinations. A vibrant surface, pop yet sophisticated, designed to transform interiors into a true visual statement.

Tartan nasce dall’incontro tra il calore del legno e il carattere iconico dei pattern scozzesi, protagonisti degli ultimi fashion show Diesel. Un gioco di contrasti tra venature naturali e segni grafici decisi, in una palette che spazia dai neutri eleganti a combinazioni cromatiche più audaci. Una superficie vibrante, pop ma contemporaneamente sofisticata, pensata per trasformare gli ambienti in un vero e proprio statement visivo.

Tartan naît de la rencontre entre la chaleur du bois et le caractère iconique des motifs écossais, protagonistes des derniers défilés Diesel. Un jeu de contrastes entre veinures naturelles et signes graphiques affirmés, dans une palette allant des neutres élégants aux combinaisons chromatiques plus audacieuses. Une surface vibrante, pop mais en même temps sophistiquée, pensée pour transformer les espaces en une véritable déclaration visuelle.

NEW CHEVRON

COLLECTION

New Chevron reinterprets the herringbone layout with a freer, more rhythmic design that recalls the elegance of historic European floors while embracing a modern attitude. The slats, available in oak, walnut, ebony and gray wash, weave together in a perfect balance of light and shadow. The result is a refined dynamism that evokes textile yarns and frayed weaves, an unmistakable material signature of the Diesel world.

New Chevron reinterpreta la posa a spina con un disegno più libero e ritmato, che richiama l'eleganza dei pavimenti storici europei ma con un'attitudine modern. Le listelle, disponibili in rovere, noce, ebano e gray wash, si intrecciano in un equilibrio perfetto di luci e ombre. Il risultato è un dinamismo raffinato che richiama i filati tessili e le trame sfilacciate, firma materica inconfondibile del mondo Diesel.

New Chevron réinterprète la pose en chevrons avec un dessin plus libre et rythmé, qui rappelle l'élégance des sols historiques européens tout en adoptant une attitude moderne. Les lamelles, disponibles en chêne, noyer, ébène et gray wash, s'entrelacent dans un équilibre parfait de lumières et d'ombres. Le résultat est un dynamisme raffiné qui évoque les fils textiles et les trames effilochées, signature matérielle inconfondable de l'univers Diesel.

D-PLANK

COLLECTION

D-Plank revolutionizes tradition with a precise, modular design, carefully calibrated, where each board fits into a measured, impactful graphic rhythm. The regular geometries, inspired by the world of prints and the brand's iconic patterns, bring order and structure to the space without losing warmth or naturalness. The shades – from amber honey tones to dusty greys and whites – enhance the collection's versatility, offering cross-cutting solutions for interiors with a bold yet balanced style.

D-Plank, rivoluziona la tradizione con un disegno modulare preciso, calibrato, dove ogni asse si incastra in un ritmo grafico misurato e d'impatto. Le geometrie regolari, ispirate al mondo delle stampe e dei pattern iconici del brand, conferiscono ordine e struttura allo spazio, senza perdere in calore o naturalezza. Le tonalità – dai miele ambrati ai grigi e bianchi polverosi – amplificano la versatilità della collezione, offrendo soluzioni trasversali per ambienti dallo stile deciso ma equilibrato.

D-Plank révolutionne la tradition avec un dessin modulaire précis, calibré, où chaque planche s'emboîte dans un rythme graphique mesuré et percutant. Les géométries régulières, inspirées de l'univers des imprimés et des motifs iconiques de la marque, confèrent ordre et structure à l'espace, sans rien perdre de chaleur ni de naturel. Les tonalités – des miels ambrés aux gris et blancs poudrés – amplifient la polyvalence de la collection, offrant des solutions transversales pour des intérieurs au style affirmé mais équilibré.

IWOOD

COLLECTION

The new Diesel Living with Berti products, Black star, Kaleidostone and Dark Shade, suitable as floor and wall coverings, are the unique and innovative result of the fusion of various state-of-the-art technologies. The graphics are digitally printed; non-toxic, non-flammable and odourless colors are natural products with water-based formulations and solid micro-pigments.

I nuovi prodotti Diesel Living with Berti, Black star, Kaleidostone e Dark Shade, adatti come pavimenti e come rivestimenti, sono il risultato unico e innovativo della fusione di diverse tecnologie di ultima generazione. Le grafiche sono realizzate con la stampa digitale; colori atossici, non infiammabili e inodori sono prodotti naturali, con formulazioni a base d’acqua e micro pigmenti solidi.

Les nouveaux produits Diesel Living with Berti, Black star, Kaleidostone et Dark Shade, utilisables comme revêtements de sol et de mur, sont le résultat unique et innovant de la fusion de plusieurs technologies de pointe. Les graphiques sont imprimés numériquement ; les couleurs non toxiques, ininflammables et inodores sont des produits naturels avec des formulations à base d’eau et des micro-pigments solides.

STUD TILES

COLLECTION

Stud Tiles gathers our luxury proposal. Wooden stud tiles characterised by geometric inlays that recall typical Denim studs and rivets. An exclusive piece from our high-end collection, which gives a rock interpretation to classical decorations.

Stud Tiles raggruppa la nostra offerta luxury. Quadrotte in legno caratterizzate da intarsi geometrici che richiamano borchie e rivetti tipici del Denim. Un pezzo esclusivo della nostra collezione di gamma alta, che interpeta decori classici in versione rock.

Stud Tiles regroupe notre offre de luxe. Des carreaux en bois à clous caractérisés par des incrustations géométriques qui rappellent les clous et les rivets typiques du Denim. Une pièce exclusive de notre collection haut de gamme, interpolant des décorations classiques dans une version rock.

TRUE COLORS

COLLECTION

Working on the perfect chromatisms is a must for Diesel: indigo, the typical denim colour, paints these wide planks in a natural way, living the wood veins visible. We also developed other colours which were designed and conceived as a basic underlayer through an in-depth study of the chromatic factor. The nuances developed are rich, as the black enriched with a trace of blue, reveal a clear signature expression, showing a colour that is never flat.

Sviluppare cromatismi unici è un must per Diesel: l'indigo, per eccellenza, colore tipico del Denim, che tinge queste tavole in modo naturale lasciando ben visibili le venature del legno. Ma anche gli altri colori, ideati e pensati quali substrati basici tramite un approfondito studio del fattore cromatico. Così, le nuances prescelte, al pari del nero ricco di una punta di blu, rivelano una chiara cifra espressiva, mostrando una tinta sempre viva e mai piatta, come nel tessuto.

Développer des couleurs uniques est un must pour Diesel : l'indigo, par excellence, une couleur typique du Denim, qui teinte ces planches de manière naturelle, en laissant le grain du bois bien visible. Mais aussi les autres couleurs, conçues et dessinées comme supports de base à travers une étude approfondie du facteur chromatique. Ainsi, les nuances choisies, comme le noir riche d'une pointe de bleu, révèlent un caractère expressif clair, montrant une teinte toujours vivante et jamais plate, comme dans le tissu.

URBAN GREY

COLLECTION

Grey, the industrial colour par excellence, is a strong base for interiors as it is also the concrete's colour, expressive material on contemporary living spaces. It is through this set of greys that we give an interpretation of concrete, working its details in the chromatic shades and in the treatments, with refined aesthetic results.

Il grigio, colore industriale per eccellenza, è il colore anche del cemento, espressione di modernità e del vivere contemporaneo. È con questa serie di grigi che offriamo una interpretazione di tale materiale, lavorandone i dettagli nelle sfumature cromatiche e nei processi di trattamento. Con raffinati esiti estetici sul legno delle pavimentazioni.

Le gris, couleur industrielle par excellence, est aussi la couleur du béton, expression de la modernité et de l'habitat contemporain. C'est avec cette série de gris que nous proposons une interprétation de ce matériau, en travaillant les détails dans les nuances de couleurs et les processus de traitement. Avec des résultats esthétiques raffinés sur les sols en bois.

TREATED CANVAS

COLLECTION

We treat wood like a fabric. With the application of special dyes and treatments, evocative prints and special textures the wooden floor turn into a soft and transformable surface with an outstanding metamorphosis. Creating a customized environment, friendly with the inhabitant's experience.

Come un tessuto, il legno diventa una superficie da trasformare. Ed è grazie a speciali tinture e trattamenti, suggestive stampe e textures uniche che il pavimento in legno si trasforma, stupefacente metamorfosi, creando un ambiente personalizzato a misura del vissuto di chi lo abita.

Comme un tissu, le bois devient une surface à transformer. Et c'est grâce à des teintures et des traitements spéciaux, des imprimés évocateurs et des textures uniques, que le sol en bois se transforme, se métamorphose étonnamment, créant une ambiance personnalisée, adaptée à l'expérience de son habitant.

TECHNICAL FEATURES

INFORMAZIONI TECNICHE

INFORMATIONS TECHNIQUES

TECHNICAL FEATURES

**2 LAYERS PRE-FINISHED
2 STRATI PREFINITO
2 PLIS PRÉFINIS**

It consists of a hardwood top layer and a supporting bottom birch plywood multilayer made of a very particular structure with cross layers which guarantees maximum stability to this products.

Composto da uno strato superiore di legno nobile e da uno strato di supporto inferiore in multistrato di betulla costituita da una particolare struttura a strati incrociati che garantiscono la massima stabilità di questo prodotto.

Composé d’une couche supérieure en bois noble et d’une couche inférieure de support en contreplaqué de bouleau, il présente une structure spéciale en couches croisées qui garantit la stabilité maximale de ce produit.

**3 LAYERS PRE-FINISHED
3 STRATI PREFINITO
PRÉFINI 3 COUCHES**

Composed by a top layer of 4mm of noble wood, of a 8 mm Fir cross middle layer, running in the opposite direction of the top layer grain, granting an appropriate structural flexibility and a 2 mm fir-wood counterbalancing layer in order to counterbalance the wide planks and give them the maximum structural stability.

Composto da uno strato superiore di legno nobile di 4 mm di spessore, da uno strato intermedio composto da listelli indipendenti di abete di 8 mm di spessore, disposti in senso trasversale rispetto all’andamento delle fibre dello strato nobile in modo da garantire la giusta flessibilità strutturale, e da una controbilanciatura in plancia di legno di abete di 2 mm a cui è demandato il compito di controbilanciare e garantire la massima stabilità delle tavole.

Il se compose d’une couche supérieure en bois noble de 4 mm d’épaisseur, d’une couche intermédiaire de lames indépendantes en épicéa de 8 mm d’épaisseur, disposées transversalement au parcours des fibres de la couche noble afin de garantir une flexibilité structurelle correcte, et d’un contrepoids en épicéa de 2 mm d’épaisseur, chargé de contrebalancer et de garantir la stabilité maximale des lames.

**PATTERN FLOORS
QUADROTTE
SOLS À MOTIFS**

500x500 mm laser cut consists of a 4 mm oak hardwood top layer varnished with a water based, acrylic or uv acrylic lacquerand a 9 mm birch plywood made of a very particular structure with 7 cross layer which guarantee maximum stability to this product. Bevelled, with tounge and groove joint.

Quadrotte 500x500mm è una quadrotta a taglio laser composta da 2 strati che si caratterizza per la seguente composizione: uno strato superiore di rovere pregiato di 4 mm di spessore, finito in superficie con vernice acrilica, acrilica UV o all’acqua. Uno strato di supporto inferiore in multistrato di betulla di 9 mm di spessore costituita da una particolare struttura di 7 strati incrociati che garantiscono la massima stabilità di questo prodotto. Bisellato, con incastro maschio-femmina.

« Quadrotta » 500x500mm, à savoir des carreaux en bois à clous découpés au laser et composés de 2 couches avec la composition suivante : une couche supérieure en chêne fin de 4 mm d’épaisseur, finie en surface avec un vernis acrylique, acrylique UV ou à base d’eau. Une couche inférieure de contreplaqué de bouleau de 9 mm d’épaisseur, constituée d’une structure spéciale de 7 couches croisées qui garantissent la stabilité maximale de ce produit. Joint biseauté à rainure et languette.

**IWOOD VENEER OAK
IWOOD TRANCIATO DI ROVERE
PLACAGE CHÊNE IWOOD**

The planks are made of a 0.6 mm veneer wood of the finest oak, a cross-laminated birch plywood backing and a counterbalancing part made of veneer wood (0.6 mm) that guarantees maximum stability. High-precision joints guarantee flatness.

Le tavole sono costituite da un tranciato di 0,6 decimi in legno nobile di primissima scelta di rovere, un supporto in betulla multistrato a strati incrociati e da una parte controbilanciante in legno (0,6 decimi) che garantisce la massima stabilità. Incastri ad alta precisione garantiscono la planarità.

Les planches sont composées d’un placage de chêne de premier choix de 0,6 dixième d’épaisseur, d’un support en contreplaqué de bouleau à couches croisées et d’un contrepoids en bois de 0,6 dixième d’épaisseur pour une stabilité maximale. Des joints de haute précision garantissent la planéité.
